Mercury Builders Chooses Centris As Preferred Lender

OMAHA, Neb. – Centris Federal Credit Union is pleased to announce a new preferred lending partnership with Mercury Builders, an Omaha based firm specializing in custom built homes. Mercury is the latest to join a group of home builders who have a lending relationship with the credit union.

Chloe Hamel, Mortgage Loan Originator for Centris, said that the path to having a dream home just got easier for those wanting to build in the Omaha metro area. “With the many mortgage financing options available from Centris, this partnership pairs our lending expertise with the building expertise of Mercury Builders,” Hamel said. “We are really excited about being able to assist their clients and ensure that we continue our Centris tradition of closing on time, every time.”

Hamel added that with Centris’ rate lock program, buyers have a greater benefit by having the mortgage with Centris. “It’s really a win-win situation for buyers because it allows them to lock their rate for up to a year with a guaranteed, free, one-time option to lower the rate if interest rates decrease,” she said. This additional peace of mind means buyers do not have to worry about whether or not they can afford their dream home by the time it is finished being built.

Mercury Builders was started in 1992 by Jeff Gehring and in 2005 the business grew with the addition of Ed Bueno who helped the company grow from refurbishing houses to general contracting on residential and commercial projects in eastern Nebraska. They are currently featured in the following communities: Ashbury Hills, Bridgeport, Coventry Ridge, Founders Ridge, Granite Lake, Pier 15, Remington Ridge, Summerhill Farm, Sumtur Crossing, Vistancia and Westbury Farms. They specialize in building the perfect custom home for their clients.
